“Computer Downtime” costs
businesses dearly!

As the cogs of industry begin to turn again and gather pace after lockdown - how is the health of your computer system? It's that essential tool we all use for business but we all too often forget, and we expect them just to carry on performing.

Remember that server that is hidden away in the office cupboard which often gets forgotten but processes for you and your staff tens of thousands of bits of information every day and acts as the information and communications hub of your business?

This is an office machine before we recently serviced it. It was found to be running at 109 degrees Celsius!

NEWARKCOMPUTERS

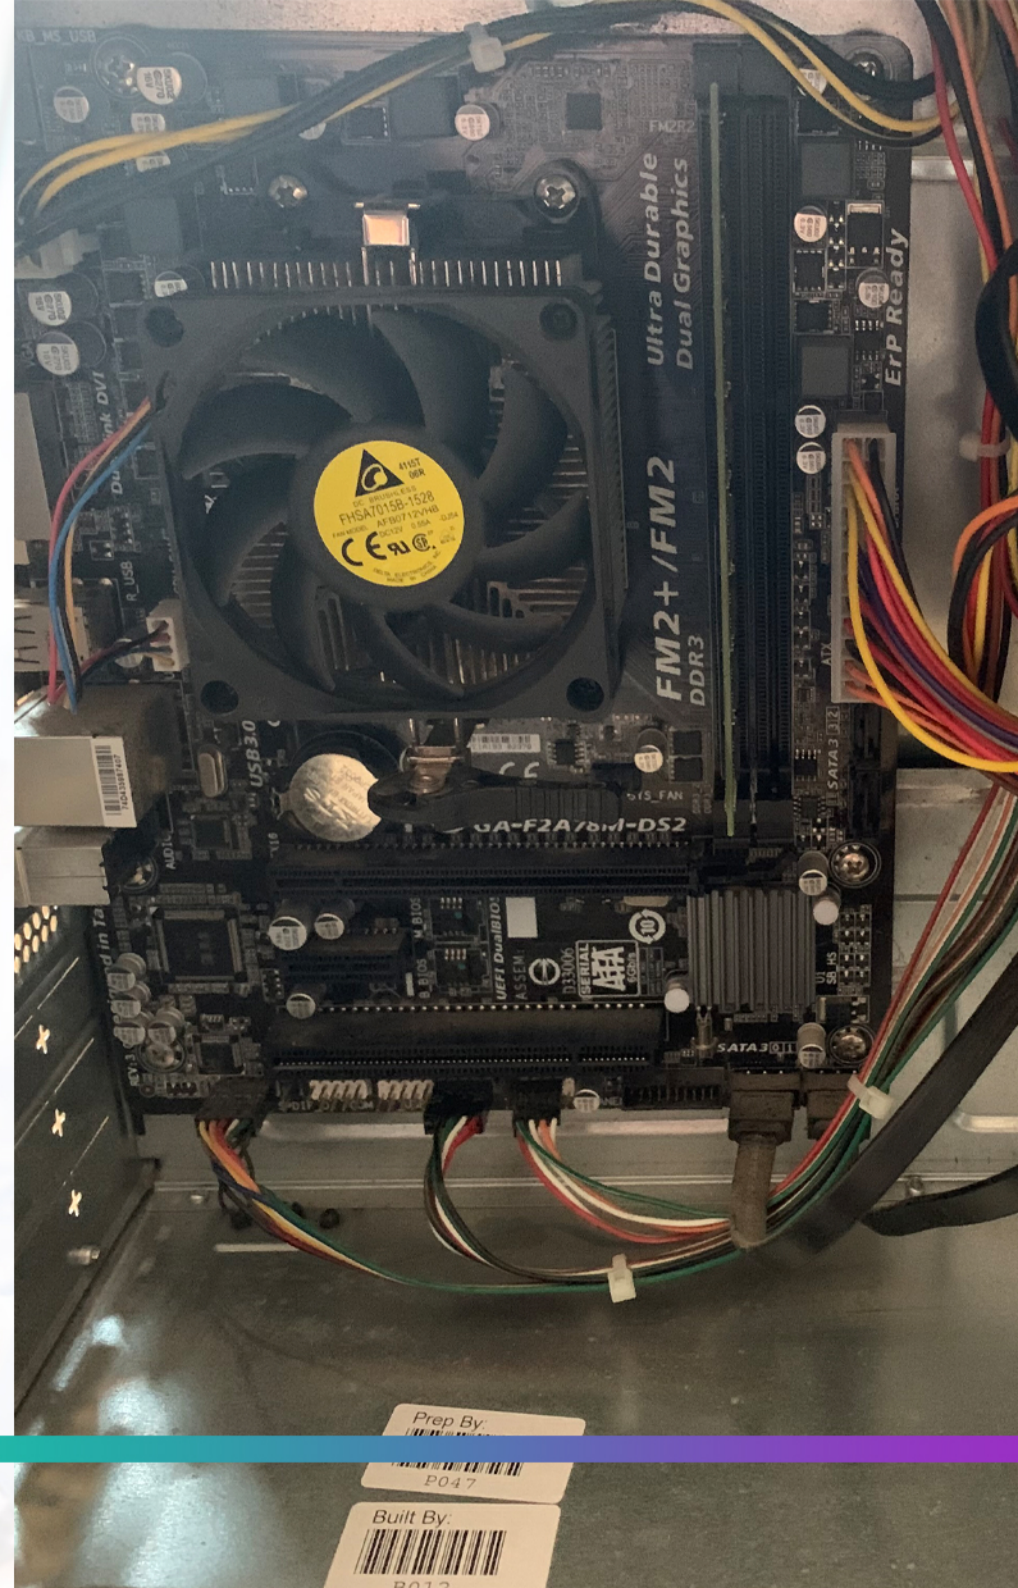

As you can imagine, continued use of this machine could well have proven a fire hazard - but thankfully our free health check service identified an issue and following our **“PC Service & Tune Up”**, the PC has been pronounced fit for several more years duty!

Chances are whether you're a one-man business or larger company, your computers just do not get as much TLC as they require and deserve.

One thing's for sure, when it goes down and you can't access that vital piece of information you will wish you had the support of a local and well established company at the end of the phone to sort it for you.

NEWARKCOMPUTERS

So, what is our suggestion?

We are offering to visit your office and to give your laptop, desktop or entire office system a health check complete with a full report of its condition, along with recommendations to ensure best efficiency to cope with all your computing needs – but the best part is we will do this for you completely free of charge (following Covid-19 guidelines at all times for your safety!).

**To book your Free System Health Check
call us on 01636 362361 or e-mail
hello@newarkcomputers.co.uk**

Ultimately, if you then wish to become a client to keep your system maintained in tip top condition, then our costs are monthly and minimal.

NEWARKCOMPUTERS

A background image showing a server rack with a hand plugging a cable into a port. The server is blue and black, and the cables are white and blue.

We work with a wide range of clients whose business we understand as we have forged a business as “not just the computer repair guy” as we make businesses more efficient.

We understand the need for value for money service and the need to be on site within four hours.

Through our **comprehensive monitoring systems**, we can also often remotely resolve an issue before your system/laptop even goes down or if it is becoming less efficient and requires a tweak! We are your insurance policy to keep your office systems running smoothly.

- > **Pro-Active Support**
- > **24/7 Server Monitoring**

NEWARKCOMPUTERS

We can also supply and install bespoke computer systems for your home or office facilitating full remote working.

This computer was created for a civil engineering firm based in Fernwood, Newark. Four employees work off this computer both on-site and remotely through ipads / iphones / laptops and PC's.

If it is **office telephone systems** - we design these to suit your needs, supply and install. You can even work from home either by taking a work phone home with you or use your mobile or laptop.

NEWARKCOMPUTERS

Proudly, here are some of our recent customer testimonials:

"I have used Newark Computers Support for a few years now. Their technical support, knowledge, print and design skills are all very professional and I would highly recommend them for all of their services. Thank you, Tim and the Team and we look forward to many years of business with you in the future."

- Frankie
776 Gymnastics & Gymnastics Awards

"I have worked with Tim at Newark Computers for five years now and have found him to be most professional in his approach to assisting my team but also how he is willing to give you ideas and recommendations which will save you both time and money. As well as his IT knowledge we have used his skills for the creation of a website and marketing artwork, always delivered on time and to high specification. Tim will take the stress out of IT for an individual or a larger organisation and no query is too small for him to answer!"

NEWARKCOMPUTERS

"I have used Newark Computers for 10 years. They have developed websites for our award winning businesses that are extremely user friendly and stand out from our competitors. The support ranges from app and website development, marketing material to critical IT support and maintenance. Their support package delivers the comfort in knowing that our IT infrastructure is taken care of. Allowing my team to focus on delivering our product. Newark Computers are reliable, flexible, adaptable and offer a slick professional service agreement that is never compromised. They offer exceptional value for money in an all too competitive market place. I would have no hesitation in recommending Newark Computers."

David

Award Winning The Railway Lowdham & The Radcliffe

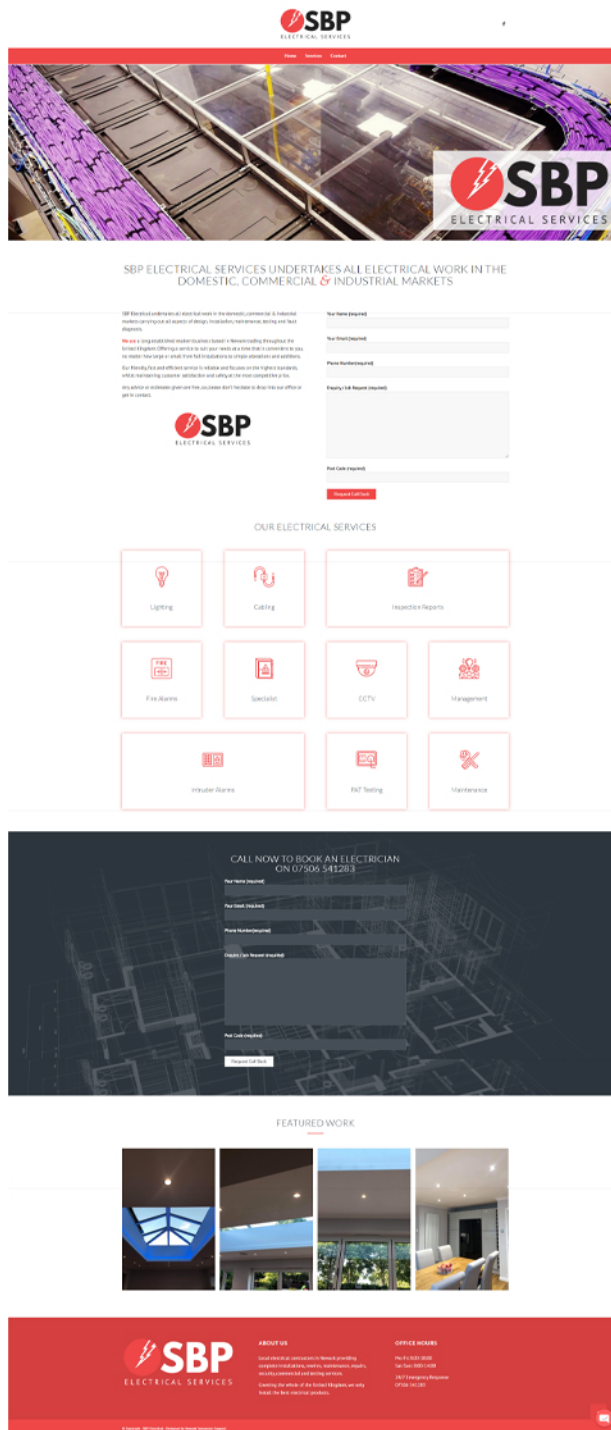

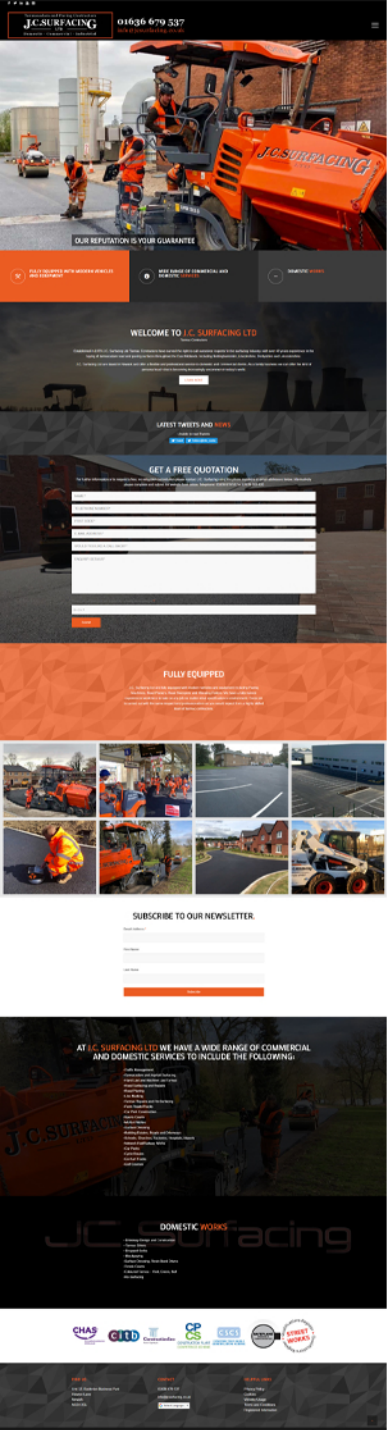

"Delighted we chose Newark Computers for all our IT and website needs. Efficient, capable and very helpful. As new technology arrives I am confident they can advise and implement any changes needed to benefit our business."
